**WORLDWIDE LEADING TECHNOLOGY COMPANY MOVES TO NEWMARKET BUSINESS PARK**

Idexx, a worldwide leader in the development & commercialization of innovative technology-based products/services for veterinary, food and environmental applications has taken the last two units on Plot 7 at Newmarket Business Park where more than 2,508 sq.m (27,000 sq. ft) has been let.

Units' 1B/1C totalling 593.25 sq.m (6,386 sq. ft) will be occupied by Idexx, whose primary business focuses on pet healthcare. It develops, produces and sells an integrated portfolio of products and services including in-clinic diagnostic tests and instrumentation, laboratory services, pharmaceuticals, and practice management software. With its headquarters in the USA, it conducts operations through more than 40 locations around the world, and employs over 3,000 people in full-and part-time positions.

Richard Daigle, Director of Facilities at Idexx Laboratories Inc., comments "Newmarket Business Park provides our US Company with an excellent European HQ to service our international markets"

Other occupiers at Newmarket Business Park include Taylor Woodrow Plc, Ridgeons, Plumb Center and Parts Center, Chubb Fire and timber merchants Howdens Joinery.

Ben Sole of Cheffins Commercial says; "This scheme by Hamilton Land has been an outstanding success with a wide range of high quality occupiers, reflecting the tremendous demand around Newmarket and the A14 corridor for well located, new premises."

Ben Sole adds that in addition to the completed trade park there is further development land to accommodate up to 9,290 sq.m (100,000 sq. ft) of buildings suitable for offices/R&D, production/warehousing and trade counter uses.
